

# MODELSEARCH

for Creo Parametric and Creo Elements/Direct  
for Model Manager and Windchill

## GEOMETRIC SIMILARITY SEARCH IN PERFECTION

### ModelSearch allows you to:

-  find similar parts in PTC PLM environments and Creo
-  compare parts for similarity, even live when designing
-  analyze assembly structure
-  detect duplicates at runtime

### GREAT BENEFITS AND ROIS

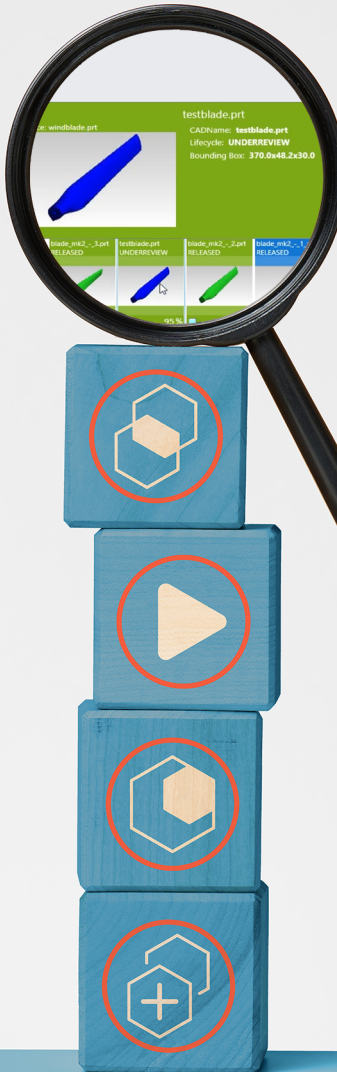

ModelSearch enables great benefits to all departments involved in a Product Lifecycle and a quick ROI as our Customer Success Stories show.

# iPRINT

for Creo Parametric and Creo Elements/Direct  
for Model Manager and Windchill

## EFFICIENT - WEBBASED - MIGHTY

### ACCESS DRAWINGS, MODELS AND DOCUMENTS VIA BROWSER!

Free your engineers from additional work!  
Recursive collecting of assemblies / projects!  
Connect ERP systems to automatically  
execute tasks.

### Use PTC PLM solutions as input

#### iPRINT allows you to:

-  simplify searches
-  create lists
-  view documents, models and drawings
-  stamp drawing (e.g. view only)

Automate your output and printing process  
and make accessing drawings and content as  
easy as never before!

**More than 10.000 user rely on iPRINT**
